Well folks. Happy New year could get more information about (Better late than never !!), and lets the group from. They had already hope 2002 is a better year for contacted UFO Magazine !!! About SUFOG. Already, we are off to a any photo's they could supply for great start for the year. The Daily the article of a UFO.. Well, they Mail on the 4th August ran the sent them a photo of people story of new documents released standing around a radar screen under the official secrets act with (Sounds a bit familiar this one !! - the headline 'The Night of the Flying Saucer'... Then, on the same day, The Portsmouth News, light for this article in our part of featured the same story under the headline 'The Real X-Files'.. The next day, I spent over 2 hrs SUFOG's PRO man, Ernie Sears e.mailing the Aldershot newspaper was interviewed about the release press cuttings concerning UFO's of the documents and said 'The from the area and also a government tried to play down any photograph of a UFO that I took in news about UFO's, but privately it 1989. It gets better... On the 9th was worried that these things could January, Ernie rang to say he had confuse their defences, get mixed a phone call from Meridian TV up with a Russian attack and asking if they could interview him, prompt a false war'.

The above, was then followed up by a phone call from the News and Mail group (Aldershot), who interviewed SUFOG's Chairman (ME) !. on the 8th January and asked if I could help with some information about an article to be published in the paper on Friday 18th January concerning the above item. Well, I jumped at the opportunity for more publicity for the group and I supplied them with a listing of sightings from around the Aldershot area dating back to the early 1960's. I also gave them details of our web site where they

with regards to the recent release of secret UFO documents. He said no problem and asked if I could go along. So, Friday (11th) we met up at Ernie's and he was interviewed by the reporter and then after driving to Portsdown Hill, we were both interviewed over-looking Portsmouth harbour.

As I complete this edition of the newsletter, the Farnborough Mail have published the article on the 18th January and will be reviewed in the newspaper cuttings section of this newsletter.

As you will read on page 18 of the newsletter, A 'UFO' was sighted

over Southampton on the 17th August (SUFOG group meeting night !!), but was put down to being a satellite burning up in the atmosphere. This was witnessed by two SUFOG group members on the way to the meeting. Spooky....

A couple of statistics for anyone interested out there :

As of 1st January 2002 we have 67 subscribers to the newsletter and we exchange with 15 other groups in the UK and around the world...

SUFOG funds, as of the 1st of January 2002 stood at £81.50. But, bearing in mind we spent at the end of 2001, £500 on a laser printer and all the stationary for 2002/3 we require, it looks as if we should re-coupe our 2001 expenditure in 2002/3, and hopefully have a small profit to plough back into the group.

Lets hope that 2002 turns out to be even better than 2001.

**World Exclusive..**  
**Bush Meets Alien...**  
**But Which ones Bush ?**

Well, It had to happen one day folks... President Bush is seen here shaking Webs (Oops !! Hands) with a visitor from outer space. This secret photograph was smuggled out of Area 51 by special agent M.I.B2. The photograph, taken 2 months ago, shows President Bush greeting 'Lota FulloB', president elect of the alien race 'Bit Shull', on a recent visit to Earth.

There was much discussion about the Space Defence System, and how effective it would be against the Afghanistan's if only it was pointed at Earth and not 'Bit Shull'.

President Bush is planning an exchange trip in 2005, where he will run 'Bit Shull' for 5 years in an attempt to balls up their economy, just as he has done in America.

Reporter : Eric Tull (ET correspondent)

Statement of Dallas L. Salisbury  
President, Employee Benefit Research Institute  
(EBRI), Chairman, American Savings Education  
Council (ASEC)

Testimony Before the Subcommittee on Social Security of the House Committee on Ways and Means.

Hearing on "The Future of Social Security for This Generation and the Next" Current State of Public Opinion on Social Security.

October 23, 1997.

**Our Survey Work**

EBI began doing public opinion research on Social Security in 1990. This research has been conducted by two different organizations in different years : the Gallup Organization from 1990 to 1996,. And Matthew Greenwald and Associates with an annual Retirement Confidence Survey (RCS) from 1990 to 1997. These surveys have explored a wide range of economic security topics. In 1998, EBRI will initiate an annual Health Confidence Survey.

I have made extensive material available to the Committee, which has been submitted as part of the full statement. This morning, I want to highlight findings that relate to the debate over Social Security reform.

*Social Security, UFOs and Aliens.*

EBRI recently compiled a new survey with Matthew Greenwald and Associates that look at Social Security, UFOs and aliens.

First, 58% of the public believes that they will receive some benefits from Social Security. This ranges from 83% of those about to retire down to 44% of those younger than the baby boomers. This is consistent with a 1995 Luntz survey of generation X.

Second, we asked, "Do you believe that living beings from other planets have piloted space craft to or near earth, which have been seen by human beings?"

- 30% said yes
- 60% said no

Third, because of the attention given to the 1995 Luntz survey for the Third Millennium that was publicized as comparing faith in Social Security to belief in UFOs, we asked the public : "Which one comes closest to your definition of UFO?"

- 77% said an "object in the sky that cannot be identified," and
- 19% said a "spacecraft that is controlled by an alien."

Fourth, we asked people, "which do you have greater confidence in?":

- 71% said "receiving Social Security benefit after retirement," and
- 26% said that "alien life from outer space exists."

For generation X'ers, these responses were 63% and 33%.

The Gallup organization has undertaken surveys since the 1950's that have found that a consistent 40 plus % of the population thinks that UFO's exist. The 1995 Luntz survey found that 46% of those ages 18-34 believed that there were UFO's. Separate from that question, Luntz found that 63 % (+/- 4.4%) of those ages 18-34 "did not think Social Security will still exist by the time you retire." 56% (+/- 4.4 %) favoured being allowed to put part of their payroll taxes into an individual retirement account (IRA) while taking a lower Social Security benefit. 70% opposed raising the retirement age to 70; 51% favoured means testing the benefits; 51% favoured taxing 100% of the benefits paid to upper middle income taxpayers.

(Need I say more... Steve G. Editor.. Thanks to Steve Rider (Secretary) for this bit of interesting information).

### **The Way Ahead for SUFOG in 2002.**

Following consultations with group members Steve Rider (Secretary), Ernie Sears (Public Relations Officer) and Bill Smith (SUFOG Technician), the following changes will take effect within SUFOG from the 1st January 2002 :

- Greater emphasise in publicising the group through the Press, Radio and Television in Southern England.
- The above three members (Plus myself) will hold quarterly meetings to discuss the group and any policy changes.
- We plan to have a YEARLY open day/ conference around October / November every year, depending on the level of support from members.
- We plan to increase sky watches throughout 2002, again with members support.
- We will continue our yearly trip to Avebury and to the Dorchester Conference on the 7th

April 2002.

- As from the 1st January, Single SUFOG membership will rise from £6.50 to £7.00 a year. This is because the newsletter will be produced IN HOUSE, and we have our own laser printer to do this job on. No increase, No Newsletter.
- We are planning a video afternoon.
- The Avebury trip for 2002 is still going ahead (Weekend of 3rd/4th August), but... This may change if we cannot arrange transport i.e. a Mini Bus and also the trip will not be subsidised as it has been in the past and the cost will be £20.
- Dorchester trip on 7th April 2002.. Seats are available in private vehicles if required. But, you have to buy your own tickets... Details available in this newsletter.
- Arranging talks... If you know of any local groups that would like to hear a talk on UFO's, crop circles, or ghosts, then let us know. There is a sheet available showing costs etc for a 2 - 3 hr talk.
- At our group meetings, we will have a video library for hire. Each video can be borrowed until the next meeting for a small fee of £2. I video per person.
- We are planning a summer BBQ.. Check our diary in the newsletter for date and venue.
- Christmas party to be arranged at the December meeting. Again, check the diary section of the newsletter for details.
- Membership cards... These will be issued when you join the group, but will not be renewed. They will on be replaced if lost, stolen or become so badly damaged that they are unreadable.
- Group meetings... We have decided to add a bit of structure to our meetings as follows :
  - January : Open Discussion
  - February : Video Evening
  - March : Open discussion and 1 hour lecture.
  - April : Open Discussion
  - May : .Video Evening.
  - June : Open Discussion and 1 hour lecture.
  - July : Open Discussion
  - August : Video Evening.

- September : Open discussion and 1 hour lecture.
- October : Open Discussion.
- November : Video Evening.
- December : Open discussion and 1 hour lecture.

The only other slight change at the meetings will be with regards to the video evenings. Instead of the normal charge of £2 per meeting, on video evenings, the charge will be £3 for the meeting, to cover electricity charges etc.

Steve Gerrard (SUFOG Chairman/Founder)

---

## A Die-Hard Issue

# CIA's Role in the Study of UFOs, 1947-90 (Pt 1)

Gerald K. Haines

An extraordinary 95 percent of all Americans have at least heard or read something about Unidentified Flying Objects (UFOs), and 57 percent believe they are real. (1) Former US Presidents Carter and Reagan claim to have seen a UFO. UFOlogists--a neologism for UFO buffs--and private UFO organizations are found throughout the United States. Many are convinced that the US Government, and particularly CIA, are engaged in a massive conspiracy and cover-up of the issue. The idea that CIA has secretly concealed its research into UFOs has been a major theme of UFO buffs since the modern UFO phenomena emerged in the late 1940s. (2)

In late 1993, after being pressured by UFOlogists for the release of additional CIA information on UFOs, (3) DCI R. James Woolsey ordered another review of all Agency files on UFOs. Using CIA records compiled from that review, this study traces CIA interest and involvement in the UFO controversy from the late 1940s to 1990. It chronologically examines the Agency's efforts to solve the mystery of UFOs, its programs that had an impact on UFO sightings, and its attempts to conceal CIA involvement in the entire UFO issue. What emerges

from this examination is that, while Agency concern over UFOs was substantial until the early 1950s, CIA has since paid only limited and peripheral attention to the phenomena.

## Background

The emergence in 1947 of the Cold War confrontation between the United States and the Soviet Union also saw the first wave of UFO sightings. The first report of a "flying saucer" over the United States came on 24 June 1947, when Kenneth Arnold, a private pilot and reputable businessman, while looking for a downed plane sighted nine disk-shaped objects near Mt. Rainier, Washington, traveling at an estimated speed of over 1,000 mph. Arnold's report was followed by a flood of additional sightings, including reports from military and civilian pilots and air traffic controllers all over the United States. (4) In 1948, Air Force Gen. Nathan Twining, head of the Air Technical Service Command, established Project SIGN (initially named Project SAUCER) to collect, collate, evaluate, and distribute within the government all information relating to such sightings, on the premise that UFOs might be real and of national security concern. (5)

The Technical Intelligence Division of the Air Materiel Command (AMC) at Wright Field (later Wright-Patterson Air Force Base) in Dayton, Ohio, assumed control of Project SIGN and began its work on 23 January 1948. Although at first fearful that the objects might be Soviet secret weapons, the Air Force soon concluded that UFOs were real but easily explained and not extraordinary. The Air Force report found that almost all sightings stemmed from one or more of three causes: mass hysteria and hallucination, hoax, or misinterpretation of known objects. Nevertheless, the report recommended continued military intelligence control over the investigation of all sightings and did not rule out the possibility of extraterrestrial phenomena. (6)

Amid mounting UFO sightings, the Air Force continued to collect and evaluate UFO data in the late 1940s under a new project,

GRUDGE, which tried to alleviate public anxiety over UFOs via a public relations campaign designed to persuade the public that UFOs constituted nothing unusual or extraordinary. UFO sightings were explained as balloons, conventional aircraft, planets, meteors, optical illusions, solar reflections, or even "large hailstones." GRUDGE officials found no evidence in UFO sightings of advanced foreign weapons design or development, and they concluded that UFOs did not threaten US security. They recommended that the project be reduced in scope because the very existence of Air Force official interest encouraged people to believe in UFOs and contributed to a "war hysteria" atmosphere. On 27 December 1949, the Air Force announced the project's termination. (7)

With increased Cold War tensions, the Korean war, and continued UFO sightings, USAF Director of Intelligence Maj. Gen. Charles P. Cabell ordered a new UFO project in 1952. Project BLUE BOOK became the major Air Force effort to study the UFO phenomenon throughout the 1950s and 1960s. (8) The task of identifying and explaining UFOs continued to fall on the Air Material Command at Wright-Patterson. With a small staff, the Air Technical Intelligence Center (ATIC) tried to persuade the public that UFOs were not extraordinary. (9) Projects SIGN, GRUDGE, and BLUE BOOK set the tone for the official US Government position regarding UFOs for the next 30 years.

### **Early CIA Concerns, 1947-52**

CIA closely monitored the Air Force effort, aware of the mounting number of sightings and increasingly concerned that UFOs might pose a potential security threat. (10) Given the distribution of the sightings, CIA officials in 1952 questioned whether they might reflect "midsummer madness." (11) Agency officials accepted the Air Force's conclusions about UFO reports, although they concluded that "since there is a remote possibility that they may be interplanetary aircraft, it is necessary to investigate each sighting." (12)

A massive buildup of sightings over the United States in 1952, especially in July, alarmed the Truman administration. On 19 and 20 July, radar scopes at Washington National Airport and Andrews Air Force Base tracked mysterious blips. On 27 July, the blips reappeared. The Air Force scrambled interceptor aircraft to investigate, but they found nothing. The incidents, however, caused headlines across the country. The White House wanted to know what was happening, and the Air Force quickly offered the explanation that the radar blips might be the

result of "temperature inversions." Later, a Civil Aeronautics Administration investigation confirmed that such radar blips were quite common and were caused by temperature inversions. (13)

Although it had monitored UFO reports for at least three years, CIA reacted to the new rash of sightings by forming a special study group within the Office of Scientific Intelligence (OSI) and the Office of Current Intelligence (OCI) to review the situation. (14) Edward Tauss, acting chief of OSI's Weapons and Equipment Division, reported for the group that most UFO sightings could be easily explained. Nevertheless, he recommended that the Agency continue monitoring the problem, in coordination with ATIC. He also urged that CIA conceal its interest from the media and the public, "in view of their probable alarmist tendencies" to accept such interest as confirming the existence of UFOs. (15)

Upon receiving the report, Deputy Director for Intelligence (DDI) Robert Amory, Jr. assigned responsibility for the UFO investigations to OSI's Physics and Electronics Division, with A. Ray Gordon as the officer in charge. (16) Each branch in the division was to contribute to the investigation, and Gordon was to coordinate closely with ATIC. Amory, who asked the group to focus on the national security implications of UFOs, was relaying DCI Walter Bedell Smith's concerns. (17) Smith wanted to know whether or not the Air Force investigation of flying saucers was sufficiently objective and how much more money and manpower would be necessary to determine the cause of the small percentage of unexplained flying saucers. Smith believed "there was only one chance in 10,000 that the phenomenon posed a threat to the security of the country, but even that chance could not be taken." According to Smith, it was CIA's responsibility by statute to coordinate the intelligence effort required to solve the problem. Smith also wanted to know what use could be made of the UFO phenomenon in connection with US psychological warfare efforts. (18)

Led by Gordon, the CIA Study Group met with Air Force officials at Wright-Patterson and reviewed their data and findings. The Air Force claimed that 90% of the reported sightings were easily accounted for. The other 10% were characterized as "a number of incredible reports from credible observers." The Air Force rejected the theories that the sightings involved US or Soviet secret weapons development or that they involved "men from Mars"; there was no evidence to

support these concepts. The Air Force briefers sought to explain these UFO reports as the misinterpretation of known objects or little understood natural phenomena. (19) Air Force and CIA officials

agreed that outside knowledge of Agency interest in UFOs would make the problem more serious. (20) This concealment of CIA interest contributed greatly to later charges of a CIA conspiracy and cover-up.

### **Amateur photographs of alleged UFOs**

**Passoria, New Jersey, 31 July 1952**

**Sheffield, England, 4 March 1962 & Minneapolis, Minnesota, 20 October 1960**

The CIA Study Group also searched the Soviet press for UFO reports, but found none, causing the group to conclude that the absence of reports had to have been the result of deliberate Soviet Government policy. The group also envisioned the USSR's possible use of UFOs as a psychological warfare tool. In addition, they worried that, if the US air warning system should be deliberately overloaded by UFO sightings, the Soviets might gain a surprise advantage in any nuclear attack. (21)

Because of the tense Cold War situation and increased Soviet capabilities, the CIA Study Group saw serious national security concerns in the flying saucer situation. The group believed that the Soviets could use UFO reports to touch off mass hysteria and panic in the United States. The group also believed that the Soviets might use UFO sightings to overload the US air warning system so that it could not distinguish real targets from phantom UFOs. H. Marshall Chadwell, Assistant Director of OSI, added that he considered the problem of such importance "that it should be brought to the attention of the National Security Council, in order that a community wide coordinated effort towards its solution may be initiated." (22)

Chadwell briefed DCI Smith on the subject of UFOs in December 1952. He urged action because he was convinced that "something

was going on that must have immediate attention" and that "sightings of unexplained objects at great altitudes and traveling at high speeds in the vicinity of major US defense installations are of such nature that they are not attributable to natural phenomena or known types of aerial vehicles." He drafted a memorandum from the DCI to the National Security Council (NSC) and a proposed NSC Directive establishing the investigation of UFOs as a priority project throughout the intelligence and the defense research and development community. (23) Chadwell also urged Smith to establish an external research project of top-level scientists to study the problem of UFOs. (24) After this briefing, Smith directed DDI Amory to prepare a NSC Intelligence Directive (NSCID) for submission to the NSC on the need to continue the investigation of UFOs and to coordinate such investigations with the Air Force. (25)

## The Robertson Panel, 1952-53

On 4 December 1952, the Intelligence Advisory Committee (IAC) took up the issue of UFOs.

(26) Amory, as acting chairman, presented DCI Smith's request to the committee that it informally discuss the subject of UFOs. Chadwell then briefly reviewed the situation and the active program of the ATIC relating to UFOs. The committee agreed that the DCI should "enlist the services of selected scientists to review and appraise the available evidence in the light of pertinent scientific theories" and draft an NSCID on the subject. (27) Maj. Gen. John A. Samford, Director of Air Force Intelligence, offered full cooperation. (28)

At the same time, Chadwell looked into British efforts in this area. He learned the British also were active in studying the UFO phenomena. An eminent British scientist, R. V. Jones, headed a standing committee created in June 1951 on flying saucers. Jones' and his committee's conclusions on UFOs were similar to those of Agency officials: the sightings were not enemy aircraft but misrepresentations of natural phenomena. The British noted, however, that during a recent air show RAF pilots and senior military officials had observed a "perfect

flying saucer." Given the press response, according to the officer, Jones was having a most difficult time trying to correct public opinion regarding UFOs. The public was convinced they were real. (29)

In January 1953, Chadwell and H. P. Robertson, a noted physicist from the California Institute of Technology, put together a distinguished panel of nonmilitary scientists to study the UFO issue. It included Robertson as chairman; Samuel A. Goudsmit, a nuclear physicist from the Brookhaven National Laboratories; Luis Alvarez, a high-energy physicist; Thornton Page, the deputy director of the Johns Hopkins Operations Research Office and an expert on radar and electronics; and Lloyd Berkner, a director of the Brookhaven National Laboratories and a specialist in geophysics. (30)

The charge to the panel was to review the available evidence on UFOs and to consider the possible dangers of the phenomena to US national security. The panel met from 14 to 17 January 1953. It reviewed Air Force data on UFO case histories and, after spending 12 hours studying the phenomena, declared that reasonable explanations could be suggested for most, if not all, sightings. For example, after reviewing motion-picture film taken of a UFO sighting near Tremonton, Utah, on 2 July 1952 and one near Great Falls, Montana, on 15 August 1950, the panel concluded that the images on the Tremonton film were caused by sunlight reflecting off seagulls and that the images at Great Falls were sunlight reflecting off the surface of two Air Force interceptors. (31)

The panel concluded unanimously that there was no evidence of a direct threat to national security in the UFO sightings. Nor could the panel find any evidence that the objects sighted might be extraterrestrials. It did find that continued emphasis on UFO reporting might threaten "the orderly functioning" of the government by clogging the channels of communication with irrelevant reports and by inducing "hysterical mass behavior" harmful to constituted authority. The panel also worried that potential enemies contemplating an attack on the United States might exploit the UFO phenomena and use them to disrupt US air defenses. (32)

To meet these problems, the panel recommended

that the National Security Council debunk UFO reports and institute a policy of public education to reassure the public of the lack of evidence behind UFOs. It suggested using the mass media, advertising, business clubs, schools, and even the Disney corporation to get the message across. Reporting at the height of McCarthyism, the panel also recommended that such private UFO groups as the Civilian Flying Saucer Investigators in Los Angeles and the Aerial Phenomena Research Organization in Wisconsin be monitored for subversive activities. (33)

The Robertson panel's conclusions were strikingly similar to those of the earlier Air Force project reports on SIGN and GRUDGE and to those of the CIA's own OSI Study Group. All investigative groups found that UFO reports indicated no direct threat to national security and no evidence of visits by extraterrestrials.

Following the Robertson panel findings, the Agency abandoned efforts to draft an NSCID on UFOs. (34) The Scientific Advisory Panel on UFOs (the Robertson panel) submitted its report to the IAC, the Secretary of Defense, the Director of the Federal Civil Defense Administration, and the Chairman of the National Security Resources Board. CIA officials said no further consideration of the subject appeared warranted, although they continued to monitor sightings in the interest of national security. Philip Strong and Fred Durant from OSI also briefed the Office of National Estimates on the findings. (35) CIA officials wanted knowledge of any Agency interest in the subject of flying saucers carefully restricted, noting not only that the Robertson panel report was classified but also that any mention of CIA sponsorship of the panel was forbidden. This attitude would later cause the Agency major problems relating to its credibility. (36)

## The 1950s: Fading CIA Interest in UFOs

After the report of the Robertson panel, Agency officials put the entire issue of UFOs on the back burner. In May 1953, Chadwell transferred chief responsibility for keeping abreast of UFOs to OSI's Physics and Electronic Division, while the Applied Science Division continued to provide any necessary support. (37) Todos M. Odarenko, chief of the Physics and Electronics Division, did not want to take on the problem, contending that it would require too much of his division's analytic and clerical time. Given the findings of the Robertson panel, he proposed to consider the project "inactive" and to devote only one analyst part-time and a file clerk to maintain a reference file of the activities of the Air Force and other agencies on UFOs. Neither the Navy nor the

Army showed much interest in UFOs, according to Odarenko. (38)

A nonbeliever in UFOs, Odarenko sought to have his division relieved of the responsibility for monitoring UFO reports. In 1955, for example, he recommended that the entire project be terminated because no new information concerning UFOs had surfaced. Besides, he argued, his division was facing a serious budget reduction and could not spare the resources. (39) Chadwell and other Agency officials, however, continued to worry about UFOs. Of special concern were overseas reports of UFO sightings and claims that German engineers held by the Soviets were developing a "flying saucer" as a future weapon of war. (40)

To most US political and military leaders, the Soviet Union by the mid-1950s had become a dangerous opponent. Soviet progress in nuclear weapons and guided missiles was particularly alarming. In the summer of 1949, the USSR had detonated an atomic bomb. In August 1953, only nine months after the United States tested a hydrogen bomb, the Soviets detonated one. In the spring of 1953, a top secret RAND Corporation study also pointed out the vulnerability of SAC bases to a surprise attack by Soviet long-range bombers. Concern over the danger of a Soviet attack on the United States continued to grow, and UFO sightings added to the uneasiness of US policymakers.

Mounting reports of UFOs over eastern Europe and Afghanistan also prompted concern that the Soviets were making rapid progress in this area. CIA officials knew that the British and Canadians were already experimenting with "flying saucers." Project Y was a Canadian-British-US developmental operation to produce a non-conventional flying-saucer-type aircraft, and Agency officials feared the Soviets were testing similar devices. (41)

Adding to the concern was a flying saucer sighting by US Senator Richard Russell and his party while traveling on a train in the USSR in October 1955. After extensive interviews of Russell and his group, however, CIA officials concluded that Russell's sighting did not support the theory that the Soviets had developed saucer-like or un-conventional aircraft. Herbert Scoville, Jr., the Assistant Director of OSI, wrote that the objects

observed probably were normal jet aircraft in a steep climb. (42)

Wilton E. Lexow, head of the CIA's Applied Sciences Division, was also skeptical. He questioned why the Soviets were continuing to develop conventional-type aircraft if they had a "flying saucer." (43) Scoville asked Lexow to assume responsibility for fully assessing the capabilities and limitations of non-conventional aircraft and to maintain the OSI central file on the subject of UFOs.

(Continued in the March/April Edition)

---

### **"IT'S MADNESS TO BELIEVE THAT MAN IS ALONE":**

Vatican Astronomer -- Jesuit George Coyne, director of the Vatican Observatory, is convinced of the existence of extraterrestrial life and states that it is "madness" to think that humans are alone in the universe. Father Coyne and his scientific team reached this conclusion after studying the heavens from the astrophysical research center located at Castelgandolfo near Rome.

"The universe is so vast that it would be madness to think that we're an exception," said Coyne in an interview with the Milan newspaper "Corriere della Sera", underlining that "each day new data is amassed" which leads to the possibility of life forms different from those found on Earth. "The more we study the stars, the more aware we become of our own ignorance," he adds. The Jesuit priest, responsible since 1978 for an observatory with more than a century of history behind it and reporting directly to the Holy See, states that "Science does not undermine faith; rather, it stimulates it." He admits not having any proof of extraterrestrial life. He insists that there is not necessarily any conflict between the Biblical origin of the Cosmos and the current ones being championed by science, such as the Big Bang. Thanks to Translation (C) 2001. Scott Corrales, Institute of Hispanic Ufology.

***MAGAZINE REVIEWS***  
***BY ERNIE SEARS.***

**BUFORA Bulletin** : for December 2001 features a cover that has that controversial alien autopsy rampant... just to shock you with an update article in its pages too ! Philip Mantle covers the story with the help of several involved experts and the end result might surprise some, but then it's the first time such have been aired. Mark Asquill on ancient visitors or sky Gods interesting too. John and Anne Spencer's Encyclopaedia of Ghosts and Spirits (Vol 2) gets the once over from Malcolm Robinson. Brian Allen has a go at the "Reality Tilt" which takes in missing time, abductions, ionisation involved, tectonics stress and a nod towards "electromagnetic" theories of Albert Budden and investigation of such by Judith Jafaar. yours truly has that bit about hybrid births, and the theories of Prof. Stephen Hawking, which I hope has given you food for thought ! Jimmy Goddard reviews David Cromer's "The UFO Investigators Guide" (Blandford Press) and available from our good friend Lionel Beer (Spacelink Books) at an almost half price bargain... and guaranteed FAST delivery ! Media roundup concludes a good BUFORA BULLETIN. Membership details from BM BUFORA, London, WC1N 3XX. **SYNCHRONICITIES** is the journal of APRA and the December

2001 issue nicely packaged and printed in the style of the BUFORA BULLETIN... no coincidence since our old friend Brian Allen has connections with both ! "Bits and Pieces" is just that... covers skywatching and then future skywatching. Are Ghosts on the Decline (blame the Internet?), my answer is spooky things are increasing... with recent witnesses I watched a heavy cigarette lighter FLY across a lounge during a "spritualistic" session which I hosted locally at an undoubtedly haunted house... which has also had UFO close encounters on more than one occasion ! English sightings come next reported, Perthshire, Grimsby, Rita G. reports on her personal sightings, close encounters, aliens, spirits and such... a "repeater" if anyone is ! "MIBS" gets the 'what do YOU think?' treatment from James A. Hill. Well? World sightings follow "Liar, Liar, Pants on Fire?" caused a smile but turned out to be Brian Allan's serious look at the darker, covert, black funding, events, non co-operation from Governments, denials of actual documents (typical, 'deny everything' stuff)... join the club, Brian ! Some interesting sky photos... the "funny trails" ones are getting more and more reports.. mine included ! OK !... Synchronicity only available now on subscription, or "swap with other mags"... £4.50 for 3 issues from B.P JAMES C/O Po Box 135 Didcot, OX11 9YA UK.

**THE AUSTRALIAN UFO MAGAZINE** for December 2001 has it's usual smart cover. UFO's and a space shuttle craft in space, inside Paul Norma reports on the UFO trail... no shortage of sightings "Down Under" either recently of "vintage" reports. Satellite Object Cases from 1944 behaving in "UFO" fashion ! 26 UP TO 1961 ! The USA MUFON organisation, Ohio, reports several dramatic sightings in 2000, while George Filer's Files covers four pages... all 2001 dates around the world. A football field sized silent hovering and moving slowly craft reported at Central Idaho, USA, September 2000, another dramatic encounter from a passenger aircraft in January 2001 between Denver and Cleveland. A "flying triangle" over New York October 2001, followed by PAGES of Queensland, sightings circa 2001 and more PAGES of the same over South Australia 2001, with a few vintage sightings for good measure. All in all the picture impresses. Judith Magee, President of the Victorian U.F.O Research Society and magazine editor must feel a quiet pride in the Society's small committee and an apparent hotline to UFO's ! Po Box 1043, Morabbin, Vic 3189, Australia for all enquiries. **U.F.O TODAY** is the smartley turned out magazine of the Southend UFO Group... Vol 1 Issue 4 lies before me and contents include... or don't !... the name of its editor although his photo and other evidence proves he exists ! Fabled Atlantis comes in for another expose by a French scientist with a theory that brings in The Straits of Gibraltar. An object that 'lit up the night sky' along the East Anglian coast 29th October 2001 has left unanswered questions after the usual

"fireworks", "Space Junk", or "Leonid large meteor." (Reminds me of the 17th January ditto seen by Davina while walking down to the SUFOG meeting at Netley... our Echo rang me next day to report hundreds of enquiries... I missed it by split seconds by the way but descriptions of "green" colour said "meteorite". Subsequently left a solution unanswered ! Echo said 'possible satellite!'). World news roundup does just that over two pages. Then its Disclosure Part 2, four pages long and 'more to come' it says ! Lee Flack writes part 3 of "Memoirs of a Shadowman"... Roswell, Corona, etc and covert cover-ups and lies that surround the UFO enigma... five pages ! Black projects, MIB's, Majestic 12, via smuggled documents that Lee mentions and so on. Intriguing... Truth however suffers ! Book reviews on Von Daniken (second hand copy) by Mike Bates and Cosmic Trigger, author Robert Anton Wilson. The later on the brains interpretation of what it "sees". Three pages on "hoaxes" by the powers that be on that moon landing... and Arnolds 1947 encounter... along with ghosts, and the Mr. Big who doesn't WANT a change on world order while he, or they, can keep millions under the illusion they are happy as it is ! And so on. Of course, we've had that fifty year old MoD document release... if sparsely !... since the Southend group mag... to MY mind if they now admit they were lying THEN in the fifties, the, ipso facto, its proof they are still lying ! Julian Smith on Nostradamus and the September 11th atrocity. The Video Vortex... Julian Smith again... reviewed the joint UFO Magazine/ WHSmith video narrated by Tom Baker entitled "The Story of the Unexplained"... fairies, ghosts, NASA footage of "the swarm", Loch Ness etc and of course UFO's, with abductions etc. Coverage of our own 10th Anniversary Day October 27th ends the mag. One point... nowhere do we, I, or our own SUFOG mention a 'police helicopter' on those Southampton Water videos... still up at the MoD since November 9th !... we don't possess one, strictly still a spotter PLANE even if fairly new ! OK... oh, neither do we have a 'Great Netley'... some of us live at "Netley Abbey" thank you ! Enquiries to Southend UFO Group, 11 Estuary Gardens, Great Wakering, Essex, SS3 0DX.

**THE UFO CRITICISM** by JN from Japan !... wow ! A seven page glossy basically printed but well meaning and into English. Vol 1 No 2, for December 2001 and not for sale... Much too complicated to review in full... space currently limited... but full of facts, drawings, maps, and many encounters... some with aircraft in the past and recently... ancient legends and modern encounters... and a really dedicated to the subject mag. Am currently poring it over ! Address : Junji Numakawa, 3-21-8-105, Soshgaya, Setagaya-ku, Tokyo, 157-0072, Japan. In our humble quest for world peace and co-operation, useful.

**UPRI NEWSLETTER**.... Issue Four 2001... video tapes, ghosts, Irish TV UFO and Paranormal, ditto Discovery Channel, chemtrail from Nexus magazine, origins by Canadian and American military sources, strange lights over Kerry, Ireland, other excerpts from newspapers in ghost busting, etc. Forty pages of UPRI NEWSLETTER makes it into something interesting. You can ONLY get it with 30 x 30p IRISH postage stamps from : Po Box 7041, Harmonstown, Dublin 5, Ireland.

**RAPPORT** magazine of the Ken Philips Witness Support Group, founded by abductees in 1990, subtitled "Enlightenment" which is pretty apt ! November / December 2001, front cover has photo of "shadow" taken from Russian Mars Explorer "Phobos"... the "Explorer" vanished after recording the object which caused this shadow on the surface of the Mars ! Member Mike Rutter supplies a good coverage of the 2001 Leeds Conference. Elsie Oakenson has her own interesting column, editor and organiser James Millen writes on a Chris Robinson he met at a talk who turns out to be a gifted clairvoyant who baffles TV companies and those doing "blind tests" on his "forecasting" of events etc. Good that James doesn't shut his mind to such goings on... they are on the increase among many of us and with multi witnesses too. ALL are linked with UFO happenings. A am sure, "Mr. H" writes openly on his thoughts about Nick Pope! Louisa Howlett writes on Lord Hill-Norton and Discovery Project's Dr. Stephen Greer and the lack of media coverage BOTH of these people. Readers letters also has a Ms S. writing on her encounters since the age of FOUR... although unusual judging from all I've read...you too? My own column (thanks James) covers SUFOG's 10th Anniversary Day and my "hybrid proof" item. Also the last letters via Lord Hill-Norton and MoD Minister Lord Ingram, dates October 2001. Splendid

unsolicited flyer of Timothy Good's latest "Unearthly Disclosure" paper back. Sorry, very much so, to read of James Millen's health problems which are a catch 22 situation which affects his blood circulation which hours spent on the production of Rapport magazine do not help at all. Hopefully someone will step forward to take a load off his shoulders. Otherwise... try James at 84 Dyers Lane, Putney, London SW15 6JU for membership details etc... no sceptics wanted... if you've had an actual experience you'll be among FRIENDS. Donations only... suggested £1.50 per issue, bi monthly.

**UFO MAGAZINE** ... last (unless Steve knows any different !) but currently not least... the January 2002 issue with an even more striking front cover than usual ! Steven Spielberg's "mothership" landing with stunned technicians.. Just ONE of the astounding "Close Encounters of the Third Kind" still the best, in my opinion, of the UFO films. A TV series... watch this space says UFO Magazine's Graham Birdsall !... set to open on USA channel in October 2002... a 10 part series to boot over successive nights. Why now ? Ah...! Other UFO Magazine items include the serving police officer who has opened a "confidential" sighting report base for fellow officers... SUFOG can tell HIM a story or two ! Foo fighters and such during the last conflict get another airing. Excellent coverage of the Leeds International UFO Conference. How come such a prestige event doesn't get coverage in the national media ? Ah... there hangs another story ! That secret fifties MoD file ! UFO aircraft encounter during the Korean War. Spheres buzz police helicopters. House of Lords written answers. Still waiting for SUFOG's ditto ! (Cowardly custards ?). Much more good stuff ! Good shops sell UFO Magazine... subs to Quest Publications International Limited, Valley Farm way, Wakefield Road, Stourton, Leeds, LS10 1SE, West Yorkshire.

NEWSPAPER REVIEWS  
BY ERNIE SEARS.

Ups and downs media wise this time... denials and secrecy still rampant although some startling press releases !

**THE SUNAY TELEGRAPH** ran a good piece on the near death experiences (NDEs) on the 9th December... surveys done in both the Netherlands and our own Southampton General Hospital... the latter on the 8th December which yours truly attended... came to much the same percentage of apparently general and more widely known incidents... and if you are not into the "connections" of UFO's and NDE's as yet try Raymond Fowler's "The Watchers ( 1 and 2 ) : Exploring UFO's and the Near-Death Experience" for one ! Or Whitley Striebers "Communion" and following books, or join SUFOG's "Ghost Watches" !

**THE DAILY MAIL** also ran a full page on NDE's and a casebook of such on the 14th December 2001 and did a fine job on 'scientists deliver compelling evidence of near death experiences' and 'Is this the afterlife' ? My reaction to that was 'Of course it is !'

**THE SOUTHAMPTON EVENING ECHO** "Free" INDEPENDENT newspaper also ran a piece on Sunday the 15th December along with a photo of yours truly and the headlines "Conference reveals the huge interest in strange phenomena". "Coincidence" or not, the Echo reporter Guy someone or other stopped myself and Lorna in the corridor at Southampton Hospital on the way to the lecture hall and asked if we were "local" and interested in the NDE subject. I silently produced a card and watched his mind boggle as he read it ! Subsequently he collared me for 30 minutes... my coffee got cold !... he probed my brain. I did my best to get him into the UFO aspect but no. NDE's was his remit that day ! During the four hour seminar I managed to link the two allied subjects during question time while appreciating the very good speakers, consultant surgeons etc, didn't want, as they said, to get too involved with UFO's ! Unfortunately there is no escaping the similar phenomena of abductions and their side effects. Science has yet to "find" the "mind" which dwells in another reality or dimension. We UFOlogists will meet them halfway from the resultant conclusion ! The seminar attendance of 150 was very

encouraging... at least ten of my UFO colleagues were present.

**THE SUNDAY TELEGRAPH** of December 30th ran the headline "Flying babies and monkey men up—UFO visits down" in the STRANGE BUT TRUE section... hosted by its usual Fortean Times editor Paul Sieveking who keeps his tongue firmly in his cheek on UFO's ! But allows those "vanishing UFO's" reports are more likely to decline in public interests. To which we might add the preponderance of UFO material on the Internet which keeps many in their armchairs with a pint in hand as opposed to their skywatches and meetings.

**THE DAILY MAIL** January 4th did us proud again with an almost full-page with a UFO illustration too of that 50 year old MoD document release which admitted a secret group... the Directorate of Scientific Intelligence... to investigate the explosion of sightings which ushered in the 50's. The experts (?) closed the book in 1951 on the grounds that any research was profitless, needing vast numbers countrywide to skywatch, whose reports might be 'questionable' at any rate. Those experts (excuse my giggling !) also thought eye witnesses were hoaxers, mad, or tricked by light ! Winston Churchill's request to be informed about the phenomena was told there was 'nothing to it'. So there. We know differently !

**THE PORTSMOUTH NEWS** had their Defence Correspondent Richard Hargreaves phoning me the day before the announcement and subsequently (4th January) did a fine piece in the paper that had a library photo of yours truly as well and told it like it is. The focus, naturally, on Portsdown Hill and the Defence establishment atop where SUFOG has filmed "craft" and where my 1960 sighting took place. Meridian TV picked up on this and contacted me, as a result of which Steve Gerrard and I found ourselves at our skywatch point on the hill next day and here at my home... to be shown at any time... to be notified. Will be interesting to see what they have left in or taken out!

**THE SUNDAY TELEGRAPH**... what would we do without it ?... had another slightly facetious half page in it's Strange But True series (13th January) on "Flying saucers that attack from below"... nothing to do with alien bases however! Strictly for laughs (?) anecdotes of manhole covers that suddenly defy the forces of gravity for various reasons and often involve hapless humans. The driving force usually that old excuse methane gas. Sometimes cracked power lines. Manholes have

been blowing up with increasing frequency in Washington DC over recent months. As if they haven't had enough trouble. The record for such must be so far for the lid that landed on the other side of a tall building it had leapt in Wisconsin. Dunno why I print such crap unless it's a secret desire to show up Fortean Times editor Paul Sievekin who ought to be taking UFO's more seriously by now ! Even Charles Forte would turn in his grave at it !

**THE DAILY TELEGRAPH** (what did we say?) of January 23rd ran a full-page article headed "Searching for life on alien earths"... quite good but only JUST allowing for visitations HERE... not surprising that our very own Royal Astronomer Sir Martin Rees has some say in the matter while geneticist Prof. Steve Jones adds his knowledge. All to do with the forthcoming Cheltenham Science Festival May 22nd to 26th. Visit website [www.cheltenhamfestivals.co.uk](http://www.cheltenhamfestivals.co.uk) or phone box office 01242 227979. Martin Rees's 'Our Cosmic Habitat' (Weidenfeld and Nicolson) £12.99 plus £1.99 postage from Telegraph Books Direct, Unit 5 and 6, Industrial Estate, Brecon, Powys, LD3 8LA. A life-like alien "grey" provides an interesting centre piece to the page.

**THE ALDERSHOT MAIL** got in touch with our Steve Gerrard via that Portsmouth News article as one of their subsidiaries, resulting in an impressive half page in the 18th January issue... copy just arrived via Steve ! SUFOG came in for quite a large and detailed portion, Graham Birdsall was obviously contacted by the journalist (Lisa Millar) responsible and the library files were consulted ref. The 60's and the seventies concerning the original SIGAP... Surrey Investigation Group on Aerial Phenomena... Omar Fowler being its founder... now the founder of Derbyshire's OVNI, see magazine reviews. Quite one of the best coverage's we have seen... reasonably accurate although no guarantees about the photos used ! That's that then !

Emie Sears Copy righted 2002.

### A Scientific Explanation Of The UFO Mystery

Starting with the facts about UFOs as they are observed, there are good scientific reasons to believe that the energy field associated with UFOs is psychotronic energy. (Refer to the book entitled, "Psychic Discoveries Behind the Iron Curtain" by Ostrander and Schroeder.) This energy is also called Chi by the Chinese and Bioplasmic Energy by the Russians. It is the Link between the non-physical mind and the physical body. This energy form can account for all of the effects that UFOs have been observed to produce. (Refer to the book, "Strange Effects From UFOs published by Donald Keyhoe and NICAP.)

Background Information And Theory Kirlian ography did show that when an organism is placed in an alternating electric field, a glowing energy field of changing colors can be seen around it. This energy field around a human body is called an Aura. The Aura has been observed to behave as if there is some unknown force holding it together. (The Aura itself behaves like an organism.) It is this unknown force holding it together that is psychotronic energy. The Aura has been observed to change with changes in thoughts and feelings. This indicates that this unknown force holding it together is a mental energy; it exists in a mental dimension. Researchers who have studied psychotronic energy believe that it is capable of mixing with and producing all other energy forms. This can explain how a nonphysical mind can generate physical energy fields to control a physical body. It can also account for the electric and magnetic fields produced by UFOs and also their glow.

A man from Czechoslovakia named Dr. Robert Pavlita has developed several devices that charge-up on psychotronic energy and use it to do specific tasks. These devices are called psychotronic generators. (For further information on psychotronic generators, read, "Psychic Discoveries Behind the Iron Curtain"). It is my opinion that a UFO spacecraft is a resonance chamber that is filled with some type of psychotronic generators.

A UFO that is filled with psychotronic generators charges-up on the Aura energy of the occupants by resonance. It becomes filled and surrounded by psychotronic energy and it starts to move into another dimension, (mental dimension). It starts to glow like an Aura. Because it is partly or totally in another dimension, the laws of physics no longer apply. Gravity loses its hold and the UFO starts to float. Being either partly or totally in another dimension, the UFO has very little inertial mass

or no inertial mass and it can accelerate very rapidly with no G-forces. It can probably move many times faster than the speed of light. Light speed is a limitation only in the physical dimension. (Note: Aura energy has been observed to be a vibratory energy making resonance possible.) [Referring to the Barney and Betty Hill abduction case: The alien told Betty that they had trading routes between stars that were about 37 light years apart; they probably move much faster than light speed to make this trading profitable.] Remote viewing experiments conducted by the U. S. Army have shown that men can be trained to see in their minds places and objects that are far away with a good degree of accuracy. Experiments such as these show that the mental dimension extends throughout space, it is not just in your mind. Just as your physical eyes look into the physical dimension, your mind looks into the mental dimension. When the psychotronic energy in an area increases, everything in that area starts to move into a mental dimension. The Auras of the UFO occupants are intensified by being in the UFO, and they also move into a mental dimension. Because they are partly or totally in another dimension, they can pass through solid walls to abduct people from their beds at night. When a UFO puts out a beam of light into the rooms of abductees, everything in that beam has moved either partly or totally into a mental dimension where physical laws no longer apply and the abductees are floated out through the wall or ceiling and into a UFO.

### **MISCELLANEOUS INFORMATION AND POINTS OF INTEREST..**

A UFO appeared in a field as if out of thin air near an air base in England and some UFOs have been seen to fade away; this is evidence that UFOs use another dimension. UFOs have flown faster than the speed of sound in the air with no sonic booms and have flown near planes very fast with no turbulence; this also is evidence that UFOs use another dimension - they were enough in another dimension that they made no air turbulence. They also are sometimes enough in another dimension that they are not picked-up on radar. Being mostly in another dimension also explains why they sometimes look like they are only lights in the sky and not solid objects. I saw on TV a report by a former member of the US Air Force that was in World War Two. He said that he witnessed spherical

shaped UFOs, that were called foo fighters at that time, chasing US planes on their bombing missions over Germany. They appeared to be under intelligent control. During one of these incidents, the UFO was shot at with a .50 caliber machine gun, and the bullets passed right through it without damaging the UFO. The UFO was enough in another dimension that solid objects like bullets could pass right through it, without damaging it. The UFO was also enough in the physical dimension that it reflected or produced visible light that could be seen. This UFO incident is also evidence that UFOs are using another dimension.

Some UFOs have a colored energy field below them when they hover. A UFO filmed over Mexico had what looked like an energy field behind it as it moved. A UFO seen in New York had lights circling it as it hovered and when all of the lights went to one end of it, the UFO moved rapidly in the other direction. This leads me to believe that if a UFO concentrates its energy field on one side, this will make it move in the direction of the opposite side. Some UFOs glow and some do not. Psychotronic energy glows after it is sufficiently intense enough to do so, and not all the time.

Certain people claim to have metals from crashed UFOs. In Russia the UFO metal had a mesh of fine gold wires surrounded by quartz insulator. UFO metal that was supposed to come from Roswell was mostly magnesium and layers of bismuth and zinc. A former US Army sergeant, Frank Kaufmann, said that he was at the Roswell crash site. He said the Roswell UFO had octagon shaped quartz cells that were glass-like on the bottom of it. Experiments can be done with psychotronic generators made of substances like this to see if it will increase the energetic effects. Psychotronic generators surrounded by a saucer shape that is made of metal containing a mesh of gold wires surrounded by quartz insulator, might be what is needed to make a resonance chamber to intensify and concentrate psychotronic energy till it is sufficiently intense for the whole device to begin moving into another dimension and take on the characteristics of a UFO. (The piezoelectric effect of the quartz might be important.)

The lights that appeared in Phoenix were analyzed by a Mr. Dilletoso of Village Labs by his computer equipment. He compared them to known lights and could not find any explanation for them. This same type of

computer analysis could be done for the light that is emitted by the human Aura to see if it compares to the Phoenix lights. Since the human Aura needs alternating electric fields to make it visible, the effects of these fields could be compensated for on the computer equipment to make a good analysis.

Many of the aliens that have been observed have large black eyes. The animals on earth that have large black eyes see in the dark; they have large black pupils. I suspect that the eyes of aliens are mostly large black pupils and they see in the dark. Since most of outer space is dark, this would help with space travel. The eyes of aliens might also see infrared.

Some female abductees claim that they were impregnated with half human half alien babies and the fetuses were removed from them. They also claim that they saw half human half alien children. If humans and aliens can interbreed like this, they must be very genetically similar. Why is this? I speculate that if humans would travel in space for many generations, inactive genes would be activated and humans would become more alien like in their physical appearance. Something like this happens when crickets and fish live in caves that are dark. They become a subspecies that are white with no eyes.

I suspect that the shapes of UFOs have significance. It seems to me that the UFOs that have a flattened shape like the saucer and triangular shapes are useful for flying in the atmospheres of planets because most of the motion would be horizontal over the planet's surface. In outer space a spherical shape might be more useful for easy motion in any direction. The round saucer shape would allow very rapid changes in horizontal direction while flying in a planet's atmosphere. Since UFOs have very low inertial mass while partly in another dimension, changes in the wind could blow them around; this could explain some of the erratic motion of saucers while hovering. The large cigar shaped craft have been observed to carry smaller UFOs.

I am inclined to believe that UFO aliens are the angels of God. Flying objects in the Bible that are associated with angels, strongly resemble UFOs. If UFO aliens are angels, then the Bible shows you what their motives are. I suspect that the aliens are using their energy fields to maintain climate control and the proper living conditions to support life on Earth. If they were to stop doing this, the weather conditions on Earth would become chaotic and life on Earth would die. Angels act as God's hands to do His will. The human race has been inbreeding with itself, and I suspect that these half human half alien children that UFO abductees report seeing might be needed to strengthen the gene pool to make the

human race stronger. If UFO aliens are the angels of God, then the second coming of Jesus Christ will probably be a UFO invasion, since the Bible says He is coming back with angels. They will abduct sinners and throw them in hell and abduct saints and put them in heaven.

Contact the late Robert Pavlita's daughter Jana and the people with her and ask them to build you a UFO. Find out all you can about the psychotronic generators and try to build one yourself.

For further information about psychotronic energy and psychotronic generators, read the books, "Psychic Discoveries Behind the Iron Curtain", by Ostrander and Schroeder (<http://abduct.com/aaer/b38.htm>) and "Future Science: Life energies and the Physics of Paranormal Phenomena, by John White and Stanley Krippner, (Doubleday /Anchor). Contact these web sites: <http://www.keelynet.com/biology/pavlita1.txt> <http://www.keelynet.com/biology/pavlita2.txt> <http://lateralthinking.com/psycho.html> (Lycos) Australian lateral thinking newsletter. The Pavlita Foundation, Roth Associates, 83-15 Lefferts Blvd., Suite 5f, Kew Gardens N. Y. 11415 (718) 847-7532

My name is Arnold Carbajal. I live in New Orleans, La . USA (504) 891-1721. This is my theory on UFO propulsion. More Information leading to my theory: I will give you one more piece of evidence. There is a famous UFO case from the 1960s, I read about it in an old Look magazine special on flying saucers. A Texas police officer, had an injured hand. When his patrol car got near a UFO, he felt heat in his injured hand. His hand healed very rapidly after that. The UFO had a purple light on one end and a blue light on the other. Researchers using Kirlian Photography have filmed the energy fields around the hands of people who practice psychic healing;

<http://www.synergy-co.com/kirlian1-6.html> when they concentrate on healing, the Aura energy in their hands focuses into a bright beam (This has been filmed.) They concluded that the Aura energy is transferred from the healer to the patient; the patient feels heat and is healed rapidly. I read in a paperback about the paranormal that the colors of the human Aura that are associated with psychic healing are purple and blue; the same colors of the UFO that healed the Texas patrolman's hand. This really tends to indicate that UFOs are using an Aura type energy field or psychotronic energy.

UFOs have caused interference in electrical equipment. Scientists have noted that the Aura energy of some people will cause interference in sensitive electronic equipment when they get near it. UFOs have caused electrostatic effects; one of the psychotronic generators causes strong electrostatic type effects. UFOs have caused physical objects such as automobiles to be moved

and they have caused compass needles to move or spin. Researchers placed sensitive equipment near psychics as they were trying to move objects by the power of their minds (psychokinesis). The equipment detected changing and pulsating electric and magnetic fields generated by the Aura energy of the psychics when they moved objects using their minds; they could cause compass needles also to move. At UFO landing sites the grass and the soil have been found to be dehydrated. A form of psychotronic energy (called cosmic energy) is generated by the shape of a pyramid that is oriented with its sides facing North and South; when meat is placed 1/3 the way up from the base in the center of the pyramid, it becomes rapidly dehydrated. Some UFO landing sites developed a ring of mushrooms growing there as if some nutrient was added to the soil to cause this extra growth. One of the psychotronic generators causes plants to grow faster and the healing Aura energy from psychic healers also causes plants to grow faster. UFOs have been seen with energy fields of different colors around them; the human Aura is also an energy field of different colors that can be seen by some psychics all the time and it is made visible to others when the body is placed in alternating electric fields. Some UFOs have energy fields that can't be seen. Aura energy also cannot be seen at times. All of these effects of psychotronic energy and UFOs can be read about in the books, Psychic Discoveries Behind the Iron Curtain and Strange Effects from UFOs. The energy fields of some UFOs have caused people to get sick and have health problems. Some types of Aura energy will also cause sickness and death; one of the psychotronic generators kills flies. Some UFO landing sites have been scorched with heat. Some psychics that practice psychic healing can use their Aura energy to generate enough heat to raise blisters on other people's skin. Scientists have shielded against and allowed for all of the known energy forms and determined that a new way that one system may act on another has now been found. This really is a newly (rediscovered) energy form. It has an inverse law of diminishing with distance unlike all the other energies that have an inverse squared law. Comparing the effects that this energy is observed to produce with the effects that UFOs are

said to cause you can see that the effects compare quite well. I believe UFOs are using this energy form to propel themselves. Research has shown that forms of this energy can cause sickness and death while other forms of it have a healing nature. If you are going to surround an aircraft and its occupants with a strong energy field it has to be an energy that will not harm the occupants. That is one of the main reasons why I considered the type of this energy that is used to be the same that normally surrounds the occupants, which is their own Aura vibrations. Although it must be intensified to produce the interdimensional effect. Resonance is probably how you would intensify their own Aura vibrations; some other devices might be used to assist this resonance to help add more energy to it; psychotronic generators hold the charge of it after it is intensified. There are ancient sanskrit texts of a civilization that lived about 15,000 years ago near Pakistan that was supposed to have UFO like aircraft and waged war with them; these texts are supposed to be factual. Scientists have discovered remains of cities in the region where rocks and clay pots were melted together with a heat as intense as a thermonuclear blast; it tends to verify these stories. You can read about this at [http://www.in-search-of.com/frames/hamilton/ancientaircraft\\_nf.shtml](http://www.in-search-of.com/frames/hamilton/ancientaircraft_nf.shtml) In one of these texts it said that the mode of propulsion of the aircraft was, "the raising of the personal vibrations until gravity had been overcome". This is another way of saying that their Aura energy vibrations were intensified by resonance. (This mode of propulsion was for the vimana aircraft that were said to have been able to fly in outer space and were not made by humans; there were other types of ancient aircraft that were supposed to have only flown in the air and they had a different type of propulsion.) There are stone buildings from ancient times made of stones weighing more than an army tank or locomotive; 200 ton stones in Egypt, 150 ton stones in South America that were quarried 200 miles away and a 400 ton stone gate. These stones were quarried, transported and set in the buildings so well that it could not be done today with our technology. This is solid evidence that such advanced civilizations did exist at one time on the earth but they vanished for some reason. A Russian astrophysicist named Nicolai Kozyrev has proven experimentally that this energy form affects inertial type gyroscopic forces, and gravity is an inertial force. ## **MEXICAN SIGHTINGS CONTINUE AT POPOCATPÉTL VOLCANO**

Troy Allen called to report he is monitoring the Popocatepétl Volcano video camera site near Mexico City on an almost daily basis. The volcano's observation camera is showing many UFOs often in a triangle formation as recently as January 8, 2002. Over a hundred Dark coloured UFOs images have been seen in recent months. UFOs have had an interest in the volcano since its December 21, 1994, eruption, ending decades of slumber. UFOs that are small elliptical coloured lights that change colour from green, to blue, to pink, to purple. They are more or less stationary and a larger roundish or flattened white light moves from snapshot to snapshot. There are often more than one dark coloured objects observed moving around the area. They will often move from the distance forward and then retreat. Due to the possibility of explosive eruptions, people are warned not to approach the volcano to closer than 12 kilometers from the crater. However, the road between Santiago Xalitxintla and San Pedro Nexapa, including Paso de Cortés, is open for controlled circulation. Photos at: <http://lookknowings.homestead.com/camview.html> and <http://www.cenapred.unam.mx/mvolcan.html> (enter Monitoreo volcanico, Tamano A) Thanks to Troy Allen <http://www.alienjoes.com>.

## **UNITED KINGDOM UFO FILES RELEASED**

A UFO cover-up has been revealed by Stephen Biscoe at the height of the Cold War. UFO fever was so rampant in the UK that the Ministry of Defence set up a secret working party to try to establish if Earth really was under observation by visiting aliens. It involved experts from the Directorate of Scientific Intelligence and the Joint Technical Intelligence Committee, and eventually they produced a report. Then the MoD spent the next 49 years denying it ever existed. Yesterday, the Public Record Office (PRO) made the papers public, but only after their existence had been admitted to a local

government Press officer working in South Yorkshire. Had it not been for Dr. David Clarke, who lives in Sheffield and works for Rotherham Council, it is unlikely that they would have come to light. Clarke combines his local government job with an academic career, which has made him one of the country's leading folklore experts. A researcher at the National Centre for English Cultural Tradition at Sheffield University, he is the author of several books on a range of folkloric traditions from stone heads and ghosts to UFO sightings and Close Encounters. His latest book "Out of the Shadows," to be published in May by Piatkus, draws on the two years of research he has been carrying out for a post-doctoral study. In the course of it, he came across references in official government documents to the report of the secret working party set up on Churchill's orders in 1950 to investigate reports of UFO sightings. In 1980, the 30-year rule ended its term of confidentiality -- but the rule was ignored and it remained secret. Clarke says, in fact, that he was repeatedly told by the MoD that no such report existed; it even denied the existence of the working party. Yet the Sheffield researcher was still coming across references to both.

IPSWICH, ENGLAND -- Nick Richards of The Ipswich Star, Suffolk reports that. "An Ipswich household was treated to an extra special sight on Christmas Day when they saw what appeared to be an unidentified flying object. The family, who asked not to be named, saw the strange flashing object from their house in Valley Road, just 24 hours after Santa would have been in the middle of his Christmas deliveries. The mother of the family told the Star that the strange sight occurred just before the early hours of Boxing Day. "At about midnight my husband noticed a very bright light. He called me to look at it and I saw what seemed to be a large star. The strange thing was that our room was illuminated by the very strong light, which it emitted. "I would normally have likened it to moonlight, but there was no moon to be seen. My husband continued to watch it as I fell asleep. He called me a few minutes later to tell me that it was flashing and emitting a blue hue around its base. He also saw two diagonal protrusions from either side towards the bottom." The object, which was oval in shape, was smaller than the moon but bigger than a star and was viewed from Valley Road towards the Portman Road area. The family said that they knew it wasn't an airplane,

a helicopter or even Christmas lights. They said that if was a star it would have been there the following night, but it left the Ipswich skyline after performing its ten-minute light show. 12/29/01 The Ipswich Star Thanks to FarShores UFO News -[www.100megsfree4.com/farshores/index.htm](http://www.100megsfree4.com/farshores/index.htm)....

**UFO was a Satellite.**  
**(Or was it ?)**

**Southampton Evening Echo 18.1.2002.**

POLICE and coastguards across Hampshire were besieged with phone calls last night when a suspected UFO was seen streaking across the Solent. The green light was seen by hundreds as it crossed the night sky at around 7.230 p.m. But the mystery object turned-out not to be a flying saucer. Instead, it is thought to have been a satellite which was burning up in the earth's atmosphere.

Then on the 20th January in the Southampton Sunday Independent newspaper (Free newspaper), the paper said it was a 'meteorite' burning up in the atmosphere. The strange thing is, that this paper is also produced by the same people that produce the Southampton Evening Echo ? Why the sudden change of mind ? Did they get it wrong in the Thursday edition ? Or, was it something else ?

(Footnote - It was also seen by group member Davina Reynolds and PRO officer Ernie, as they were on their way to a SUFOG monthly meeting !!!).

**"Looking For Orthon"**

**Author : Colin Bennett**

**Copyright 2001**

**Publishers : Paraview Press, New York.**

**By Ernie Sears.**

Handed this 280 page book by SUFOG founder and magazine editor Steve Gerrard at the groups January 17th 2002 meeting I leafed the pages idly, tinged with a nostalgic feeling, since the very name George Adamski took me back to the 1950's and the world-wide furore

that his book, "Flying Saucers Have Landed", co-authored by Desmond Leslie, caused.

A phrase leapt out at me : 'the defining moment of the 21st century will prove to be 12.30 p.m. on Thursday, November 26th, 1952'.

Could this be so? It was the day when George Adamski met Orthon, a blonde haired young looking man who alleged he was 'from Venus'. I took the book home, having been asked to review it. I read it, day and night, within 48 hours ! Names poured out from its pages. Many unknown to today's investigators and readers of the book. Facts were also seen in profusion... many unknown to me ! I recalled my not unique reaction to the book all those years ago. Why not, I had thought... a visitor from space ? Four wartime years in the RAF had increased my former interest in flying of all kinds... and post-war rocket experiments by the Russians and Americans were widening our views of the universe even then.

Further books were written by Adamski.. "Inside The Space Ships" tested our beliefs somewhat, with it's tales of dwellings and forests on the far side of the moon. Modern UFOlogy seems to have cast a more open eye on "edifices" allegedly filmed by astronauts, while the books of Raymond Fowler on the experiences of one Betty Andreasson who was able to DRAW apparent other world "life" and huge "motherships" in great detail backed Adamski's earlier claims many years later.

Author Colin Bennett gives us many more facts about Adamski's personal life and how it affected him and those around him. Many people world-wide thought he was a "visionary", even a "guru" and even a "healer", I learnt... my own experiences would go along with the connections twixt "close encounters" and subsequent side effects such as the above, one hundred per cent. Adamski seemingly had an audience with the then Pope... of Polish extraction Adamski was a Catholic... While Queen Juliana of the Netherlands hosted a conference with him and members of her armed forces, ministers (See opposite). Plenty of "proof" exists for such. Our own Timothy Good is quoted in Bennett's book here and there with material he has gained and published that backs Adamski's claims.

Which brings one to the undoubted negative attitude to Adamski's many claims in ensuing years and which often prevails today. These are believably shown for what they are in Colin Bennett's book. My own gut feeling, having been

PRIME TELEGRAPH 19-5-56

## QUEEN JULIANA IS SHOWN 'PICTURE' OF VENUSIAN

FROM OUR OWN CORRESPONDENT  
THE HAGUE, Monday.

MR. GEORGE ADAMSKI, 68, the American who regards himself as an expert on flying saucers and claims to have travelled around the moon, spent an hour with Queen Juliana at her country palace of Soestdijk to-day. Probably because of sharp Press criticisms about the visit, several Dutch experts were present.

Mr. Adamski showed the Queen what he claimed was a picture of a Venus inhabitant. "95 per cent exact," and answered questions about his "philosophy of space travel."

He said later: "I wish that everyone would follow the story of meeting these beings from outer space with the same open mind as Queen Juliana. If there were more people like her, the world would be much better."

Mr. G. ADAMSKI

**Daily Telegraph**

**19.6.1956**

"around" in Adamski's lifetime and having eventually encountered a "spacecraft" in 1960 is one well expressed in "Looking For Orthon", when the man himself, a "theosophist", and an "abductee" before the description became part of our language, had what we call a "cosmic experience" that changed his life... and he set out to change the world. As many of us do ! This became his life. After all, his "alien encounter" in the Californian desert was witnessed by watching colleagues and, indeed, those plaster casts taken were no less "evidence" than those of Colonel Halt at Rendlesham Forest in 1980 ! Later on, intrigue, "cover-up", and sheer pressure of the responsibilities Adamski took on, began to muddy the waters... for much the same reasons as today's denials of THE TRUTH. No doubt that his age and failing health... world lecture tours being extremely stressful... arguments about the impressive but allegedly "doctored" by some unknown persons films of the 12 still photos from February 1965... Timothy Good included them in his "George Adamski The Untold Story" and our own Leonard Cramp used "orthographic projection" testifying authenticity, even to the 'frightening' "shape changing" of craft... all this frustrated and disillusioned Adamski. Timothy Good is

PRODUCED BY UFOMEK

quoted as saying that the film had been stolen (by whom ?) and frames faked, seemingly by the processing firm. Conspiracies existed even then ! Paranormal influences? As many of us know, impossibilities abound once you step into that "different" reality... they "can't" happen but happen they do.

"Looking for Orthon" should be on every UFOlogists book shelves. It takes a fresh look at George Adamski. It restores belief in the man himself. It reinforces the complex, mystifying, tantalising world of the "paranormal" which, undoubtedly... again speaking from personal experience... colleagues support this... stretch far wider currently than in Adamski's day. Colin Bennett's book covers this too. An author with a perceptive and analytical mind.

John Michell wrote the forward.. Admirably... he wrote "The Flying Saucer Vision" in 1967 and is currently a much respected member of astrologer Jonathan Cainer's Daily Mirror paranormal team and well worth a regular read. An "Afterword" in Bennett's book features the

"impossibility" of Ernest Arthur Bryant's 1965 "encounter" with an apparently "reborn" Adamski the day following the latter's death... see Eileen Buckle's "The Scoriton Mystery". The totally awesome resemblance between Bryant and Adamski escaped many investigators. Coincidence ? Hoax ? Fact ?
